**Favorite quote about peace:**  
“Few have the greatness to bend history itself, but each of us can work

to change a small portion of the events, and in the total of these acts will be written the history of this generation. It is from numerous diverse acts of courage and belief that human history is shaped. Each time a [wo]man stands up for an ideal, or acts to improve the life of others, or strikes out against an injustice [s]he sends forth a tiny ripple of hope that crossing each other from a million different centers of energy and daring, these ripples build a current that can sweep down the mightiest walls of oppression and resistance. And I believe that in this generation those with the courage to enter the moral conflict will find themselves with companions in every corner of the globe.”—Robert Kennedy, Johannesburg, 1963

### **What I love about Peace Learning Center:**

Everyone is welcome and no one is alone.

### **Favorite moment at Peace Learning Center:**

Yuval Ron, an internationally renowned World Music artist, composer, peace activist and record producer played at Peace Learning Center. We had a visiting group from all over the Middle East. He showed that music could remind us of our similarities, and help us to overcome and celebrate our differences — making the world a more peaceful place.

## Dr. Johnny Cross VCA Animal Hospital

Dr. Cross was born in Raleigh, North Carolina and then moved to Blacksburg, Virginia at the age of four. He attended Blacksburg Middle and High School where he played football, basketball, and soccer. He received his Bachelor's of Science from Virginia Tech in 2002 majoring in Biology with Minors in both Chemistry and Entomology. He then attended Virginia-Maryland College of Veterinary Medicine and received his Doctor of Veterinary Medicine in 2007.

After graduation, he continued his training as a rotating intern at the Red Bank Veterinary Hospital in New Jersey. Knowing for a long time he had a love for neurology/neurosurgery, he then completed his residency in neurology/neurosurgery at the University of Pennsylvania in 2011. He has several publications and has presented at the national level as well. Although interested in all aspects of veterinary neurology/neurosurgery, Dr. Cross is particularly interested in epilepsy, intervertebral disc disease, tumors of the nervous system, and infectious/inflammatory central nervous system diseases.

Although not a Midwest native, Dr. Cross is so happy to have chosen to build his career and live in Indiana. As the first neurologist in Indianapolis, he loves the unique and meaningful relationships he has built with general practitioners in the area. Dr. Cross lives here with his wife, two daughters, two dogs and a horse.
